

Solution for Surya Shakti Vessels

Case Study

Opportunity

Surya Shakti Vessels Pvt. Ltd. is a distinguished manufacturer, supplier, trader and exporter of LPG cylinders, valves and regulators. It was established in 1981 and caters to the needs of private and public-sector undertakings that include IOCL, HPCL, Tata Motors, RIL, Bharat Gears Limited as well as the international markets

Captiva steps up

To keep electrical power systems at peak, Surya Shakti chose Captiva 500 kVA Rated generator sets powered by Perkins® 2506D-E15TAG2 engines. The engines have delivered reliable performance with low operating costs.

Captiva DG Sets provides results

The generating sets at Surya Shakti runs for between 500 to 1,000 hours a year. Perkins engines are reliable, clean and operate in all operating conditions. They have provided a dependable power solution with optimum fuel consumption.

“

Perkins is a well known brand of engines and recognised for low maintenance and operational cost. We chose to go with Captiva Generator sets because of their superior performance with high power density and reliability. We face a lot of outage and that's when DG Set provided optimum performance. ”

- Sukhdev Sharma, Assistant Manager - Purchase, Surya Shakti Vessels Pvt Ltd
